EDUCATION

Galgotias University — B.Tech Computer Science & Engineering (AI & ML) | Expected 2029

Current SGPA: **8.4/10**

TECHNICAL SKILLS

Languages: C++, C, Python, HTML, CSS

AI: LLMs, Google Gemini API, Prompt Engineering, REST APIs

Tools: GitHub, VS Code, Supabase, n8n, Code::Blocks

CAD: SolidWorks

EXPERIENCE

Technical Associate Intern | P&V; Healing Pathways

- Develop and maintain the organization's website, improving responsiveness and usability.
- Collaborate on feature implementation, maintenance, and technical enhancements.
- Support the organization's digital initiatives through reliable web solutions.

PROJECTS

ReEarth — AI-Powered E-Waste Management Platform (Team Project)

- Contributed to the development of an AI-powered web platform addressing e-waste management and environmental impact awareness.
- Integrated Google Gemini 2.5 Flash to build an AI waste-classification assistant and chatbot.
- Implemented pickup scheduling backed by Supabase and participated in designing recycling-center discovery and sustainability tracking.
- Worked with HTML, CSS, JavaScript, cloud APIs, and AI-assisted development workflows to deliver the application.

Personal Portfolio Website

- Designed and deployed a responsive portfolio website showcasing projects, certifications, and technical profile using GitHub Pages.

Bicycle CAD Model

- Created a complete 3D bicycle model in SolidWorks demonstrating engineering design fundamentals.

CERTIFICATIONS

- Google (Coursera): Crash Course on Python • GUVI: C Programming • GUVI: OOP using C++
- Salesforce AI Builders Day • GUVI × HCL Mission Upskill India – Generative AI Industry Connect

ACHIEVEMENTS

- Technical Associate Intern, P&V; Healing Pathways
- Appreciation Certificate – Techfest IIT Bombay (Delhi Zonal)
